MEMORANDUM OF TELEPHONE CONVERSATION

Date: March 15, 2000

Between: Alejandre Liberman, GCF-1

and

James C. Wallwork, Ph.D., HFS-215

I called Mr. Liberman and asked him whether he had any objections to sending out a 180-day letter to CSPI regarding their citizen petition (FAP 9Z4693). I read part of the letter to him and indicated that it was the standard 180-day letter that we sent out to a petitioner to explain why we have not acted on their citizen petition. He stated that he did not have any objection to sending the letter to CSPI at this time.

On another issue relating to bromate Mr. Liberman stated that he and Ms. Catherine Copp had set a goal of June 1, 2000 to complete a legal opinion document for potassium bromate.
